SCOUTING REPORTS

STONY POINT TIGERS

The Tigers got only a limited look at their new offense before last week's game was cut short. With more size up front this season, Stony Point has the pieces to establish the run while continuing to build the tempo Coach Pleasant wants from this offense. Defensively, the Tigers will lean on discipline, pressure and pursuit as they look to keep Hendrickson uncomfortable. Week 2 should offer a much better look at what this team is becoming.

HENDRICKSON HAWKS

The Hawks enter Thursday looking to rebound from a 39-17 season-opening loss at Belton. The 5A Division I Hawks feature plenty of size up front. Junior offensive tackle Adarius Hines stands 6-foot-4, 335 pounds and is drawing interest at the next level. On defense, 6-foot-5, 235-pound junior K.J. Dove gives Hendrickson another imposing presence off the edge. Senior quarterback Pete Vallejo Jr. leads an experienced offensive group with several returning contributors around him.

PLAYERS TO WATCH

Justin Lubin / LB

Built for contact with the wheels to hunt, Lubin brings power, speed and bad intentions to the middle of the defense. A leader who sets the tone.

Tyler Stidham / DL

Big, physical and built tough. A Missouri transplant, Stidham is ready to make himself at home in anybody's backfield.

Brodie Leal / WR

Built strong and hard to bring down. Leal turns catches into collisions. Overlook him once, and he'll turn any play into an opportunity.

JV opened the season with a 34-7 win over Glenn, with many of those Tigers coming from the Hopewell group that went undefeated and won district as eighth graders.

The freshmen started with a win of their own, and there's plenty of winning experience in that group, too—including players from Hernandez's back-to-back district championship teams. And while we're looking ahead, remember a few names: "Slick" Nik McCalla, Legend White-Thomas, Major Strong and George Bell. The freshman season is just getting started, but the All-Name Team may already be locked up.
